

Though designed for use on aerial ladders, this light's unique form makes it versatile for use in other applications. Designed durable enough to handle harsh outdoor environments, yet their modern styling allows them to be used as an interior design feature or accent lighting. The modular design allows for any one light to be replaced without major rework.

See www.TecNiqInc.com for more details and a complete list of part numbers.

D02

LED Pod Lighting Aerial Lighting
