Changing the Shape of Light™

## Unmatched Quality & Innovation

In the Agricultural markets high quality materials can set you apart from your competitor. We incorporate automotive grade polycarbonate lenses for crack and chip resistance, FR4 military grade circuit boards rather than paper like our competitor, and our own proprietary potting to assure our lights won't leak. All of this to keep essential equipment running, and downtime to a minimal

*P04 Heavy Duty  
Work Lighting*

When low maintenance and reliability are at the heart of your livelihood, the efficiencies of TecNiq's lights create value every day. Backed by the industry's leading **Lifetime Warranty**.

The products listed below represent a good starting point for our Agricultural customers. Please feel free to customize your needs based on your sales and customer preferences.

## P2/P4 STEELHEAD HEAVY DUTY WORK LIGHTING

\*P04s Available in White, Green, Blue, Red, and Amber

- Designed for the most demanding task illumination applications, in the most extreme environments
- Vibration resistant and 100% water proof
- Models include Flood or Spot light projection

### K10: Flashing Beacon

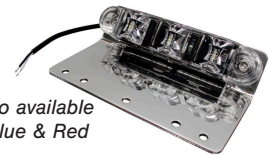

- Approval: SAE J845 Class 1
- Includes mounting gasket
- Standard single flash and AutoSync models
- Surface or 1" pole mount option

### K30: Grille Lights

- Impact resistant lens
- Available in (3), (6), or (12) LED models
- 21 different color and lens combinations
- Designed, Engineered, and Assembled in the USA

### E10: Ground/Pump Panel Light

\*Also available in Blue & Red

- Extra wide area of illumination (120° x 50°) covers many applications: task lighting, load lamp, ground lighting, panel lighting, and more
- Waterproof light that is immune to vibration

### T46: 4" Hi-Visibility Stop/Tail/Turn

- Smooth surface provides great look
- Fit all industry standard 4" round applications
- Available in grommet or surface mount
- Reliable performance over 100,000 hours

### E18: High Output Utility Light

- Vibration proof, moisture-resistant design
- Excellent optic quality and impact resistance
- Lamp output of 800 lumens
- Surface mounted for ease of installation

### T10: Stop/Tail/Turn

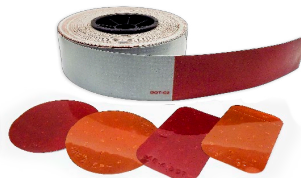

- Meets all FMVSS 108 requirements for wide and narrow vehicles
- Mounts horizontal, vertical, or at any angle
- TecSeal Potting for guaranteed circuit boards
- IP68 Rated - Dust and Water proof

### S24: 2.5" PC Side Marker w/reflector

- Exceeds FMVSS 108 standards
- IP68 Rated - Dust and water proof
- Reliable life performance over 100,000 hours
- Lifetime Warranty

### ROX: Reflexite® DOT Grade Conspicuity Tape

- Exceeds FMVSS 108 standards
- IP68 Rated - Dust and water proof
- Reliable life performance over 100,000 hours
- Lifetime Warranty

### T68: 6" High Visibility Stop/Tail/Turn

- Meets all FMVSS 108 standards for wide and narrow vehicles
- Durable impact resistant lens
- IP68 Rated - Dust and Water proof
