

TecNiq's New Heavy Duty Work Light

SteelHead Work Lights are designed for the most demanding task illumination applications, in the most extreme environments. These lights are vibration resistant and 100% water proof. The lamps are constructed with thick metal housings and impact resistant automotive grade polycarbonate lenses.

Built with the very best materials, including world leading LEDs, our highly efficient circuit design and proprietary thermal management, resulting in a uniquely small package size for some very powerful and intense lamps.

- Proprietary thermal management provides powerful performance in a small package
- Built to last a lifetime in the harshest environments
- Models include Flood or Spot light projection
- Available in Black or White Heavy Duty Powder Coating
- IP68 Rated – Guaranteed water proof
- Reliable performance over 50,000 hours
- Vibration resistant
- Operating voltage range of 10 – 30 VDC
- Stainless Steel mounting hardware included
